The User Story

Presentation By:

TRADER JOES

01. Applicant

02. Recruitment
Manager

03. Recruiter

Roles

As an applicant, I want **to browse open positions** so that I can find a role that fits me.

”

As an applicant, I want **to submit an application** so that I can apply to jobs virtually.

”

As an applicant, I want to **upload my resume** so that my experience can be reviewed.

”

As a recruitment manager, I want to
log in so that only authorized staff
reach applicant data.

”

As a recruitment manager, I want to
log out so that my session ends when I
leave.

”

As a recruitment manager, I want to
create a job posting so that applicants
can apply.

”

As a recruitment manager, I want to
define posting requirements so that
the AI has scoring criteria.

”

As a recruitment manager, I want to
edit a job posting so that I can refine it.

”

As a recruitment manager, I want to
close a job posting so that intake
stops.

”

As a recruitment manager, I want to
assign recruiters to a posting so that
they can review its applicants.

”

As a recruitment manager, I want to
view applicants for a posting so that I
can see who applied.

”

As a recruitment manager, I want to
open an applicant's profile so that I
can evaluate their details.

”

As a recruitment manager, I want to
search applicants so that I can find a
candidate quickly.

”

As a recruitment manager, I want to
sort applicants so that the strongest
appear first.

”

As a recruitment manager, I want to
compare shortlisted applicants so that
I can choose between them.

”

As a recruitment manager, I want to
rate an applicant so that my
assessment is recorded.

”

As a recruitment manager, I want to
add a note to an applicant so that my
feedback is shared.

”

As a recruitment manager, I want
resumes scored automatically so that I
skip manual reading.

”

As a recruitment manager, I want to
see a fit score so that I can prioritize
my review.

”

As a recruitment manager, I want to
read a score explanation so that I
understand the result.

”

As a recruitment manager, I want to
retry a failed analysis so that no
applicant is left unscored.

”

As a recruitment manager, I want to
view the Kanban board so that I can
see the hiring process.

”

As a recruitment manager, I want to
move an applicant to another stage so
that the board stays accurate.

”

As a recruitment manager, I want to
view a dashboard so that I can track
progress in one place.

”

As a recruiter, I want to **log in** so that
only authorized staff reach applicant
data.

”

As a recruiter, I want to **log out** so that
my session ends when I leave.

”

As a recruiter, I want to **view applicants**
for my assigned postings so that I
know my queue.

”

As a recruiter, I want to **open an applicant's profile** so that I can evaluate their details.

”

As a recruiter, I want to **search applicants** so that I can find a candidate quickly.

”

As a recruiter, I want to **sort applicants**
so that the strongest appear first.

”

As a recruiter, I want to **rate an applicant** so that the team can compare assessments.

”

As a recruiter, I want to add a note to
an applicant so that feedback is
shared.

”
